The IFAA requires your assistance please.

We are trying to place more and more information on our web for our archers.

This has now included historical information about the IFAA and the years before the IFAA became in being.

To create more interest in our past, we now will include the pocket patches of all the logos of the IFAA sanctioned events.

These pages will be available in the next few days.

When you consider that the IFAA has no formal permanent office it is quite amazing to see the amount of badges we were able to source and we like to take the opportunity to thank those who have assisted us with pictures and other information.

But we miss some of the important badges and we miss the information of the host/venue of some of these events.

Some of our badges have been sun-worn and stained. If you have a better quality patch or a

missing patch, please send us a high quality photo.

We especially appeal to those archers who did attend the pre 1970 events. Have you got info, even if it is other types of info. Photograph it and send to us.

Badges and other info about the regional championships, the ARFAC, PRFAC and NAFAC are greatly missing. Many of these events had no badges, but if they did and you have one, please send us a picture.

Most of these events that have no badges do have hat pins and/or bow-inspection stickers. You have any of these ….. take a picture and sent to us.

If you have info when and where events were held and it is not on the web page, please send us that information.

We as a collective can bring back our history as IFAA archers and in doing so bring back the lost parts of the history of the IFAA so that those who come after us will know what the IFAA stands for.

Thank you all.

Loet Smit

IFAA President
